**Machno Carwyn is the best show-jumping pony stallion in Europe, and probably in the whole world. Since the beginning of his sport career in 1997 he has been placed more than 220 times in official competitions, approximately 140 times in international CSIP/CSIOP, winning more than 50 times. He has been placed more than 25 times in international Grand Prix of which he won 7. He has more than 14'000 Swiss francs in official winnings (an international Grand Prix counts as 150 Swiss francs, so it just goes to show how much he has won). He is the only pony stallion ever to have won a gold medal at the European Showjumping Championships, which he won twice (and once 4th ridden by a young boy of 12). No other stallion has gained a medal in the 29 year history of the Championship. He is also the only pony stallion ever to win the Swiss National Championships, which he has won 4 times and once the bronze medal. This pony is simply a genius!**
